## Phazer Low Maintenance Floor Finish

Page 1 of 2

### CLASSIFICATION:

- Zinc free floor finish

### SCOPE:

- *Phazer Low Maintenance Floor Finish* is a zinc-free, durable, low odor finish that provides long lasting gloss and excellent mark, soil, and scuff resistance. *Phazer Low Maintenance Floor Finish* is applied through the Phazer Mobile Floor Care System. It is easy to apply, gives superior leveling, and responds well to battery, electric, or propane burnishing. Meets Green Seal's standard for industrial and institutional floor care products (GS-40).

### FEATURES AND BENEFITS:

#### Feature

- Zinc-free, 20% solids, low odor floor finish
- Excellent mark, soil and scuff resistance
- Low maintenance burnishing profile
- Applied through Phazer Mobile Floor Care System

#### Benefit

- High-performing, durable results and less disruptive to staff
- Improved floor appearance between maintenance
- Labor savings, operational efficiency
- Minimize labor costs and eliminate product waste

### FOR INDUSTRIAL USE ONLY

#### KEEP FROM FREEZING

#### DIRECTION FOR USE:

##### Set-up

- Place a bag of product into the pack with the bag spout at the bottom of the pack and facing out. Lock the spout into position. Close the cover and secure the locking strap.
- Attach the delivery tube by rotating the tube connector onto the spout and hand tighten. Put on the pack and adjust the straps.

##### Application Method

- Plan your route to maintain a wet leading edge. Work in sections.
- Depress the lever on the applicator handle to dispense product as needed.
- Coats are most commonly applied at 1750 ft<sup>2</sup>/U.S. gallon (42 m<sup>2</sup>/L).
- Work the applicator pad through a small puddle of product to pre-load the pad.
- Outline the first section and fill in using an overlapping figure-8 pattern; overlap the outline.
- Start slowly and build speed over time to avoid ridges, splashing and missed areas.
- The average dry time to walk will be 15-40 minutes; allow approximately 40 minutes between coats.
- Remove using any Ecolab brand floor finish stripper/remover. Rinse well and let dry.

##### Clean-up

- Remove the tube connector from the spout. Attach the tethered adapter. To flush the tube, activate the handle lever and hold the connector under cold running water.
- Rinse the exterior of the bag spout.
- Immerse and rinse the applicator pad in cold water (do not allow finish to dry on the pad). Wring and hang the pad to dry.

For product information, call 1-800-352-5326 (800-35-CLEAN)

### PHYSICAL AND CHEMICAL PROPERTIES:

- Compositional Information: Water 7732-18-5  
Diethylene Glycol Ethyl Ether 111-90-0  
Tri(butoxyethyl) Phosphate 78-51-3  
Proprietary Polyacrylate and Polyethylene Emulsions NJ0129089760808
- Physical State Liquid [Emulsion.]
- Color Opaque [Light]
- Odor Ammoniacal
- pH 7.5 to 8.5 [Conc. (% w/w): 100%]
- Relative Density 1.02 to 1.03
- Solids 20%
