- **Taj Mahal** provides a high gloss finish.

**FOR PROFESSIONAL USE ONLY****DIRECTIONS FOR USE**

**Full Strip Preparation:** Strip the floor with an Ecolab stripper at recommended use dilution. Rinse well and let dry.

**Scrub and Recoat Preparation:** Deep scrub with an Ecolab neutral or all purpose cleaner using a green or blue pad. Rinse and let dry.

**Sealing the Floor:** *Taj Mahal* is an excellent pore sealer; the use of a separate sealer is not required on most floors. If a sealer is desirable for resistance against staining spills, use an Ecolab sealer according to label directions. *Taj Mahal* may also be used as a removable base coat.

**Application:** *Taj Mahal* may be applied in either medium to heavy or thin coats, depending on the application technique. Coverage: 2000-4000 sq. ft./gal. (49 to 98 m<sup>2</sup>/L).

**Maintenance:** Dust mop. Autoscrub or damp mop with an Ecolab neutral cleaner and burnish with a combination synthetic/natural blend pad. Prepare floors with an Ecolab cleaner/maintainer prior to burnishing to enhance the gloss response.
